UNICEF Australia - NSW Youth Summit on Living with Drought

Are you a young person impacted by the NSW drought?

UNICEF Australia invites you to apply for the first NSW Youth Summit on Living with Drought, 9-11 October 2019.

UNICEF Australia, with the support of the NSW Government, is hosting the first Youth Summit for young people living with drought in NSW.

At the Summit, children and young people will come together with decision-makers and one another to discuss the challenges they face living with drought in NSW and how responses can be improved. The Summit will explore the ways decision-makers can best support children and young people to build resilience and become better prepared to reduce the negative impacts of ongoing and future drought. The Summit also presents an opportunity for young people living with drought to have a break from the land, work with their peers who are going through similar struggles, and have an opportunity to connect, engage and reflect, surrounded by beautiful Lake Macquarie.

If you're aged 14-24 years and are impacted by drought, participating in the NSW Youth Drought Summit is a unique and exciting opportunity to speak up for drought-affected children and young people. All costs associated with attending the Summit will be covered by UNICEF Australia, including travel costs. **Applications close on Friday, 30 August at 11:59pm AEST.**

ABC HEYWIRE 2020 Competition Launched

Young regional Australians – tell your story and change your world

The ABC is calling on people aged 16-22 to share their experiences of life in regional Australia for the opportunity to be featured on the ABC and win a lifechanging trip to Canberra for the Heywire Regional Youth Summit in February 2020.

Anyone with a story to tell about life outside of the big cities is encouraged to enter, with entries of any medium accepted, including text, video, audio and photo. The competition officially opens on 24 July 2019.

Forty winners will receive an all-expenses-paid trip to the Heywire Regional Youth Summit and will take part in workshops. The Summit gives winners an opportunity to inspire each other, develop ideas and share stories to help make life in regional Australia even better.

Past winners have used Heywire as a springboard to make positive change in their communities by exploring issues around agriculture, mental health, youth employment, disability and strengthening culture, just to name a few.

ABC Director of Regional & Local, Judith Whelan said "the Heywire competition is an important platform for young people living outside of the big cities to have their voices heard."

"We're proud to celebrate the stories of a new generation of Australian storytellers." Minister for Agriculture, Bridget McKenzie encourages young people to get involved and share their stories.

"I am always inspired by the depth of capacity of young people from rural and regional Australia," Minister McKenzie said.

"Heywire helps to showcase the next generation of young leaders.

"There is a positive future for the regions with young leaders so passionate and proud of where they come from."

Former Heywire winner, Bethany Evans, says "It's an enormous privilege to be a Heywire alumni and to see how the program has continued to grow and give young rural Australians a platform for discussion and change."

"For me, my experience as a Heywire winner reaffirmed how lucky I am to call rural Australia home despite the unique challenges we face. The opportunity to meet and form lasting friendships with other rural youth from across Australia has been priceless."

"The sense of empowerment and conviction that rural voices matter and deserve to be heard at all levels of Australian society is something that has stayed with me always."

Get your entries in via the Heywire website by 16th of September.

Projects Ready To Go

Work is about to start on two of Council's planned improvement projects for Balranald, with contracts about to be signed for the Market Street Revitalisation Project and upgrades to facilities at the swimming pool. Construction is expected to commence on both projects within the next two weeks.

Council will be working closely with the contractors for the Market Street project to ensure that disruption to businesses is kept to the absolute minimum necessary. Because this project includes complete replacement of the footpaths between River Street and We Street, it is unavoidable that premises will have some inconvenience while footpaths on their frontage are constructed. However, there will be a comprehensive communication plan to ensure that businesses and their customers are given plenty of advance notice in order to be able to plan ahead. Wherever possible, these works will be carried out outside of business hours to minimise the impact. There will also be a shutdown of works in the period immediately prior to Christmas when the street is at its busiest.

When completed, the revitalisation project will deliver a fresh look to the Balranald business district with new footpaths, new street furniture and trees, and shade structures at key locations.

Work at the swimming pool includes upgraded change-room, kiosk and barbecue facilities, and will be completed in time for the opening of the pool for the 2019-20 swim season.

Meanwhile planning is going ahead for other projects including the Riverfront and upgraded facilities at the Greenham Park sports hall.

Lawn Cemetery Works

The Balranald Beautification Committee recently decided to use some of their annual allowance to replace the fencing along the front of the Lawn Cemetery.

Volunteering their time to remove the old fence was some of the committee members Mary Grisdale, Jill & Peter Bath, Clint Jolliffe, Lisa Campbell, Shane Johnson and Jenny Bax Alvarado.

Sonny Porter Landscaping volunteered his time & equipment to remove the posts and the concrete footings. Sonny then installed the new fencing which looks great and is set off by the beautiful rosebushes also planted by the Balranald Beautification Committee.

Fruit Fly

Fruit Fly is a problem pest to home gardeners and commercial growers alike. The fly attacks and damages summer ripening produce such as stone fruit, strawberries, tomatoes and capsicums. Fruiting ornamentals such as flowering prunus and Manchurian pear and fruiting native plants such as lilly pilli are hosts. If uncontrolled, fruit fly can damage up to 100% of some fruit crops.

Now is the time to start thinking about implementing your control strategies to minimise the impact of this pest. Sanitation, such as picking up and destroying fallen fruit, is a very important part of any control strategy. This can work hand in hand with fly baiting and removal of any unwanted host plants.

Further information can be obtained from your garden specialist or from the NSW Department of Agriculture on their website: <https://www.dpi.nsw.gov.au/biosecurity/insect-pests/qff/pf/queensland-fruit-fly-and-the-home-gardener>
