## Introduction

The Long Term Financial Plan, hereafter referred to as LTFP, outlines how Council will deliver on its obligations now and into the future. This plan factors in resourcing requirments, including (but not limited to) asset utilisation, workforce needs and funding sources.

The LTFP is one document that makes up Council's Resourcing Strategy, which provides the link between Council's Community Strategic Plan and Council's Delivery Program and Operational Plan. These plans come together to provide the community with a strategy that focuses on how Council can deliver services that are sustainable into the future, as well as best meet community expectations given the level of resources available to Council.

The Resourcing Strategy and the associated documents are prepared in accordance with the requirements of the Integrated Planning and Reporting (IPR) framework, under the Local Government Amendment (Planning \& Reporting) Act 2009.

The diagram below outlines the interaction of the Resourcing Strategy and the elements of the overall framework:

The LTFP is important to the Council and the community because:

- The LTFP reflects the projected financial position of Council based on service levels;
- Reviews and assesses the service levels provided by Council and the impact these levels have on Council finances through sensitive analysis;
- Long term strategy and decisions are included in the LTFP, allowing them to be quantified and benchmarked against certain ratios;

## What is a Long Term Financial Plan

The Long Term Financial Plan (LTFP) covers a period of ten (10) years and it outlines, in financial dollars, the short, medium and long term proposed actions with reference to current and future service levels, as well as maintain future sustainability of the Council.

The LTFP is one document that can be used by various stakeholders to assess and determine what resources Council requires to deliver the Community Strategic Plan. The LTFP is one component of the overall Resourcing Strategy and it includes the financial information to show how differnet sensitive scenarios can have an impact on Council's overall resourcing and future direction.

The LTFP includes the following:

- Proposed budget for 2021-2022 through to 2030-2031 (over ten years);
- The assumptions used to develop and deliver the plan, including how revenue is raised;
- Assessment of financial performance against industry benchmarks;
- Review and testing of the impact of different scenarios and how they impact on future Council budgets;
- Capital expenditure.

The LTFP is updated and adopted by Council on an annual basis, along with Council's Operational Plan. The Community Strategic Plan is required to be updated every 4 years (Council's current plan is required to be reviewed during the 2021/22 financial year).

Financial modelling within this LTFP is based on an income statement, balance sheet and cashflow statement. Each sensitive scenario analysis also has an income statement, balance sheet and cashflow statement, which show how that scenario will impact on the bottom line and its impact over the long term.

## Forecasting Future Budgets

When the 10 year Long Term Financial Plan (LTFP) was compiled, there have been assumptions made on factors which are beyond Council's control. Some of these assumptions include wage increases, rate capping expectation and inflation.

Council's revenue sources are made up of three main funding sources; namely, rates and annual charges, fees and charges and grant funding. There can be a fourth source of funding Council could utilise, and this is borrowings.

## Revenue Forecasts

## Rating Capacity

On average, rates and annual charges make up around $25 \%$ to $30 \%$ of Council's revenue. Annual charges include those charges for water, sewer and waste services. When assumptions are made with regards to rates and annual charges, various factors are considered and these include (but not limited to) community capacity to pay rates and the community willingness to pay rates.

Council, when assessing the rates and annual charges for the 2021/22 year and beyond, has reviewed the potential limit reliance on rates through:

- Ensuring that the rate capping has been applied to rates;
- Increasing revenue from other sources like fees and charges;

## Special Rate Variation

In 2018/19, Council applied for, and was granted, a $10 \%$ increase in rates over the next seven years (2018/19 to 2024/25 financial years). It is Council's intention to put these additional funds towards renewal and maintenance works relating to infrastructure.

## Fees and Charges

A number of services provided by Council are done so on a user-pay basis. These fees include statutory like development application fees and council own fees, like private works. In preparing the LTFP, Council considers the cost-recovery approach when setting fees. In some cases, where a fee is a statutory fee, any change to the fee amount can only occur when allowed under the applicable Act or Regulation.

## Grant Funding

Council receives many grants each year. In some cases, these are recurring on an annual basis like the Financial Assistance Grant from the Commonwealth Government through to one-off specific grants. As an example, in the 2021/22 year, Council will receive specific grants relating to the Bidgee Haven Hostel extension, Lions Park Upgrade, Greenham Park Changeroms, Balranald Tennis Courts Upgrade, the Balranald Creative Community Learning Centre, Local Roads and Community Infrastructure and Fixing Local Roads funding.

In preparing the LTFP, an assumption has been made that Council will continue to receive some grant funding and where there is a high probability Council to receive a particular grant for the 2021/22 year, Council has included this as well. The grants assumed to be received on a yearly basis included:

- Financial Assistance Grant;
- Certain Roads and Maritime Grants including the block, supplementary and traffic grant;
- Roads to Recovery grant funding; and,
- NSW Rural Fire Service maintenace grant funding.

## Borrowings

There will be no new borrowings for 2021/22.

## Expenditure Forecasts

In developing expenditure forecasts, new and existing expenditure items have been considered. Expenditure of an operational and capital nature are considered. Operational expenditure includes things such as maintenance, whilst capital expenditure includes infrastructure replacement.

Some expenditure, like employee costs, incur both at an operational and capital level and assumptions have been applied in how these costs are applied.

Consideration has been given to all types of expenditure, their impact on each year of the LTFP, their increase/ decrease over the ten year LTFP and how they are applied in terms of phasing. The LTFP is prepared on an accurals basis.

## Financial Modelling

The development process for the LTFP has included financial modelling taking into acount how certains changes in the LTFP assumptions result in a different budget outcome. These changes are consdiered and presented in the sensitivity analysis section of this document.

## Long Term Financial Plan Assumptions

In preparing not only the 2021/22 year budget, but also the other nine years to 2030/31 financial year, consideration was given to a range of economic factors which could impact on budget forecasting.

## Market Driven Planning Assumptions

## Growth

Balranald Shire's future growth has been considered, as part of the NSW Planning and Environment's Final 2016 Local Government Area Population, Household and Dwelling Projections.

According to this report, the report shows a population projection for the Balranald Shire local govenrment area as follows:

|  | $\mathbf{2 0 1 6}$ | $\mathbf{2 0 2 1}$ | $\mathbf{2 0 2 6}$ | $\mathbf{2 0 3 1}$ | $\mathbf{2 0 3 6}$ |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Population <br> Projection | 2,250 | 2,200 | 2,150 | 2,100 | 2,050 |
| Average Annual <br> Household Growth | $(0.5 \%)$ | $(0.2 \%)$ | $(0.1 \%)$ | $(0.1 \%)$ | $(0.2 \%)$ |

The population projections provide information on how the Balranald Shire's population might change over the 20 year period of 2016-2036

It should be noted that the data above does not factor in recent developments in the region, including solar farms, nut farms and mineral sand mining. Such developments have been projected to bring to the Balranald Shire region 280 permanent jobs once fully operational.

## Inflation

Inflation, also called the consumer price index (CPI), measures changes in the price level of market basket of consumer goods and services purchased by households. When preparing the long term financial plan (LTFP), assumption has been applied that inflation will be projected to change as follows:

| $\mathbf{2 1 / 2 2}$ | $\mathbf{2 2 / 2 3}$ | $\mathbf{2 3 / 2 4}$ | $\mathbf{2 4 / 2 5}$ | $\mathbf{2 5 / 2 6}$ | $\mathbf{2 6 / 2 7}$ | $\mathbf{2 7 / 2 8}$ | $\mathbf{2 8 / 2 9}$ | $\mathbf{2 9 / 3 0}$ | $\mathbf{3 0} / \mathbf{3 1}$ |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| $2.50 \%$ | $2.50 \%$ | $2.50 \%$ | $2.50 \%$ | $2.50 \%$ | $2.50 \%$ | $2.50 \%$ | $2.50 \%$ | $\mathbf{2 . 5 0 \%}$ | $\mathbf{2 . 5 0 \%}$ |

## Revenue and Expenditure Assumptions

The following tables outline the financial planning assumptions by revenue and expenditure types. These tables also include a brief descritption as to how they have been determined.

## Revenue

1. Rates

Council has a special rate variation of $10.00 \%$ each year in place for the period 2021/22 through to $2024 / 25$ financial year. If Council did not have a special rate variation in place, then the rate cap for 2020/21 is based on IPART's advice, which is $2.00 \%$. For the year 2025/ 26 through to 2030/31, a rate peg rate of $2.50 \%$ will be assumed.

## 2. Annual Charges

Annual charges are caluclated to ensure total revenue received for each fund listed above is sufficient to fund the operating and maintenance expenses associated with providing the service including provisions for major infrastructure replacement.

## 3. User Fees and Charges

User fees come as one of two types: statutory and non-statutory. Statutory fees are determined under relevant legislation and cannot be increased above the determined amount. Non-statutory fees are set by Council and are based on cost recovery in some cases. Where cost recovery has not been applied, CPI has been used to project Council's revenue for future years from User Fees and Charges.

| $\mathbf{2 1 / 2 2}$ | $\mathbf{2 2 / 2 3}$ | $\mathbf{2 3 / 2 4}$ | $\mathbf{2 4 / 2 5}$ | $\mathbf{2 5 / 2 6}$ | $\mathbf{2 6 / 2 7}$ | $\mathbf{2 7} / \mathbf{2 8}$ | $\mathbf{2 8 / 2 9}$ | $\mathbf{2 9 / 3 0}$ | $\mathbf{3 0} / \mathbf{3 1}$ |

4. Interest and Invesment Revenues

When projecting the future rate of return on investments, the current low cash rate as well as future economic data has been used. Reliance of past data is not prudent in this situation.

| $\mathbf{2 1 / 2 2}$ | $\mathbf{2 2 / 2 3}$ | $\mathbf{2 3 / 2 4}$ | $\mathbf{2 4 / 2 5}$ | $\mathbf{2 5 / 2 6}$ | $\mathbf{2 6 / 2 7}$ | $\mathbf{2 7 / 2 8}$ | $\mathbf{2 8 / 2 9}$ | $\mathbf{2 9 / 3 0}$ | $\mathbf{3 0} / \mathbf{3 1}$ |

## 5. Other Revenues

Other revenue includes, but not limited to, lease revenue, tourism sales, park hire and other incidential revenue. CPI has been used to project Council's revenue for future years from Other Revenue.

| $\mathbf{2 1 / 2 2}$ | $\mathbf{2 2 / 2 3}$ | $\mathbf{2 3 / 2 4}$ | $\mathbf{2 4 / 2 5}$ | $\mathbf{2 5 / 2 6}$ | $\mathbf{2 6 / 2 7}$ | $\mathbf{2 7 / 2 8}$ | $\mathbf{2 8 / 2 9}$ | $\mathbf{2 9 / 3 0}$ | $\mathbf{3 0} / \mathbf{3 1}$ |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| $2.50 \%$ | $2.50 \%$ | $2.50 \%$ | $2.50 \%$ | $2.50 \%$ | $2.50 \%$ | $2.50 \%$ | $2.50 \%$ | $2.50 \%$ | $2.50 \%$ |

6. Grants and Contributions - Operating

Council receives a number of oprational grants from both Commonwealth and State govenrment bodies. The largest of these is the Financial Assistance Grant and the Long Term Financial Plan (LTFP) assumes that this will continue over the next ten years. We have also assume that some other grants will continue to be received as well, namely roads to recovery. Council has also factored in one-off specific grants in the year in which we anticipate to receive them.

With the Financial Assistane Grant, for 2021/22 year has been assumed that no increase to the 2021/22 actual allocation will occur based on the advice Council has received form the Office of Local Government, whereby caution was to be exercised when setting the budget.

7. Grants and Contributions - Capital

This source of revenue can be significant in size of overall Council revenue sources. Prediciting the amount of revenues received from capital revenue can be difficult to determine, especially when it comes to timing of receiving the funding. However, capital revenue has been based on known projects that have either been entered
into or have been announced as been successful. Any re-current cpaital grants have been increased on a small percentage so as to not overstate possible revenue stream. Some capital grants, like the Roads and Maritime Services block and traffic facility grants have been assumed to continue into the future. Other capital grants received for specific purposes have been included in the year we anticipate they will be received.

## 8. Net Gain from Disposal of IPPE

Predominately received from the sale of plant and fleet. Future years are based on the assumption that plant/ fleet will maintain a rolling replacement program and will vary year to year dependant on the plant/ fleet sold.

## Expenditure

## 1. Employee Benefits and On Costs

For the 2021/22 year, it has been assumed that a $2.5 \%$ will apply to employee wages. Council has assumed that this rate of $2.50 \%$ per annum over the remaining nine years of the Long Term Financial Plan (LTFP). Other assumptions relating to employee costs included in the LTFP are:

- Average increase as a result of Award based salary Band step of $0.25 \%$ per annum;
- Superannuation statutory contribution will be $10 \%$ from 2021/22 and it then incremetally increase to $12.00 \%$ by $2025 / 26$;
- A $5.00 \%$ vacancy in established permanent positions in each financial year.

2. Borrowing Costs

Interest incurred on borrowings for infrastructure projects is based on current interest rate indentified in the Loan Agreements.

## 3. Materials and Contracts

Unless otherwise identified to increase at a differnet rate, all materials and contracts expenditure, which represent the costs to deliver services to the community like road maintenance and waste facility management, are forecast to increase in line with CPI.

| $\mathbf{2 1 / 2 2}$ | $\mathbf{2 2 / 2 3}$ | $\mathbf{2 3 / 2 4}$ | $\mathbf{2 4 / 2 5}$ | $\mathbf{2 5 / 2 6}$ | $\mathbf{2 6 / 2 7}$ | $\mathbf{2 7 / 2 8}$ | $\mathbf{2 8 / 2 9}$ | $\mathbf{2 9 / 3 0}$ | $\mathbf{3 0} / \mathbf{3 1}$ |

## 4. Depreciation and Amortisation

The depreciation methodology is based on useful lifes and revaluation cycles. The depreciation useful lives methodology can be found in Council's financial statements. When estimating depreciation, Council has considered future depreciation costs on capital infrastructure replacement and also on new infrastructure, the revaluation cycle of asset classes and disposals.

## 5. Other Expenses

These heading includes electricity, insurances, emergency services contributions, donations, information technology and other related epxenditure. CPI has been used to project Council's other expenses for future years.

## Long Term Financial Plan 2021-2031

## Budget Summary

Council's proposed 2021/22 to 2030/31 long term financial plan (LTFP) is as per Attachment 1, which represents the Consolidated Council (all activities of Council). A balance sheet and cashflow are also provided. Council considers the Water Supply and Sewerage Services to be separate business units of Council. All other functions of Council come under the General Fund.

Council's operating result for 2021/22 is estimated to be $\$ 10.158$ million surplus. When you remove the effect of capital grants and contributions, the operating result is $(\$ 20,000)$ deficit. The net budget surplus is $\$ 376,270$ after accounting for all funding movements.

The table below breaks down the Consolidated Council income statement into the three separate funds for the 2021/22 year:

## Performance Monitoring

Council not onlys monitors it's LTFP and annual budget in terms of meeting budget expectation, but it also monitors measures to assess its long term financial sustainability. To achieve this montinoring process, Council uses financial performance indicators including:

- Operating performance ratio;
- Unrestricted current ratio;
- Own source revenue ratio;
- Debt servicing cover ratio;
- Rates and annual charges outstanding ratio; and,
- Cash expense coverage ratio.

The financial indicators are in accordance with Local Government Code of Accounting Practice and Financial Reporting. Council is required to report on these financial indicators as part of its annual financial statements and will also report on a quarterly basis as part of the budget review process.

These indicators, or ratios, are used by the NSW Local Government industry as the minimum benchmarks for reporting. The ratios and their description/ purpose are listed below for the 2021/22. A full ten year analysis can be located at Attachment 3.

|  | Benchmark | Council 2021/22 |
| :--- | :---: | :---: |
| Operating performance ratio | $>0.00 \%$ | $(0.13) \%$ |
| Unrestricted current ratio | $>1.50 \mathrm{x}$ | 4.63 x |
| Own source revenue ratio | $>60.00 \%$ | $28.51 \%$ |
| Debt servicing cover ratio | $>2.00 \mathrm{x}$ | 51.27 x |
| Rates and annual charges outstanding ratio | $<10.00 \%$ | $6.26 \%$ |

## Understanding the ratios

Operating performance ratio - This ratio measures Council's achievement of containing operating expenditure within operating revenue;
Unrestricted current ratio - To assess the adequacy of working capital and its ability to satisfy obligations in the short term for the unrestricted activities of Council;
Own source revenue ratio - the measurement of a local government's ability to cover its costs through its own revenue efforts, namely rates, annual charges and fees and charges;
Debt servicing cover ratio - This ratio measures the availability of operating cash to service debt including interest, principal and lease payments;
Rates and annual charges outstanding ratio - To assess the impact of uncollected rates and annual charges on Council's liquidity and the adequacy of recovery efforts;
