

# MINOR FLOOD BULLETIN # 05

## Mirrool Creek

Issued: Wednesday 10 August 10:30AM

### What is happening?

MINOR FLOODING OCCURRING AT EAST MIRROOL REGULATOR

Moderate rainfall late last week has caused minor flooding along Mirrool Creek at East Mirrool Regulator. River levels peaked late Monday night and are currently easing.

### What we are expecting:

Minor flooding is occurring along Mirrool Creek at East Mirrool Regulator.

The Mirrool Creek at East Mirrool Regulator peaked at 1.49 metres around 10:00 pm Monday night, 09/08/2022, and is currently at 1.08 metres and falling, with minor flooding.

The following impacts may occur:

- Low-lying areas, paddocks, backyards and parts of buildings below ground level can flood. Especially if they are near water courses.
- Local roads (including at Hanwood), footpaths and cycleways, and low-level bridges can close.
- Floodwater can affect your animals, including pets and livestock.
- Access to properties and towns may be cut and these areas become isolated.
- Power, water, sewage and other utilities services may be impacted.

### What you need to do:

People in areas likely to be impacted by flooding should prepare for increasing flood effects. Action that you can take to safe guard your family, pets, livestock include:

- Avoid storm drains and pipes, ditches & drains.
- Never drive, walk, ride through, play or swim in floodwater—it is dangerous and toxic. If it's flooded, forget it.

Farmers and businesses are encouraged to:

- Move pumps, animals and equipment away from water courses
- Move poisons, waste and chemicals to high storage locations.
