

Jingellic and Bringenbrong flooding

Stay informed

Advice

Issued: Wednesday 29 Nov 2023 1:13 pm

Next update: Thursday 30 Nov 1:15 pm or as the situation changes

The NSW SES advises people in the following area(s) to **STAY INFORMED** about predicted possible minor flooding on the Upper Murray River:

- Jingellic
- Bringenbrong

You should stay informed by monitoring warnings issued by NSW SES on their website and Facebook page, listening to your local ABC radio station, and checking the latest weather information from the Bureau of Meteorology online.

This warning is for communities in NSW. Floods have different impacts on either side of the Murray River. For information and warnings relevant to Victoria, visit www.emergency.vic.gov.au or call [1800 226 226](tel:1800226226). Always follow advice from your State's emergency services.

What are we expecting?

The Bureau of Meteorology advises a broad low pressure system is expected to bring widespread rainfall across parts of NSW with severe thunderstorms and locally heavy falls for the next few days.

This rainfall may cause flooding within the Upper Murray Catchment.

Based on predictions from the Bureau of Meteorology, the following areas may be impacted by dangerous floodwaters:

- Low-lying areas along creeks and rivers may be impacted.
- Culverts and causeways may be impacted.

What you need to do:

- Farmers should consider moving pumps and farm equipment to higher ground.
- Companion animals and livestock should be relocated to higher ground that will not become an island.
- If you have a Home and/or Business Emergency Plan, review it now. Otherwise, have a conversation and plan for what you will do and take with you if you need to evacuate.
- Consider the consequences of road and bridge closures and water over roads and make alternate arrangements for work, children, and travel.
- Obey all signs about road closures and instructions from emergency services.
- Never drive, walk, ride through, play or swim in flood water - it is dangerous, toxic, and may void your car insurance. If it's flooded, forget it. Fines may apply.
- Avoid storm drains and pipes, ditches, ravines, creeks, and rivers.
- People in areas likely to be impacted by flooding should raise their assets, including waste and chemical containers above expected flood heights.

- Share this information with family, friends, and neighbours and help others prepare where possible.

For more information:

- Listen to your local ABC radio station which can be found at reception.abc.net.au.
- Follow us on social media [@NSWSES](https://twitter.com/NSWSES) or visit our website at www.ses.nsw.gov.au
- Learn about your risk at www.ses.nsw.gov.au/knowyourrisk/
- Check latest weather, warnings, rainfall and river heights at www.bom.gov.au/nsw/
- Check road closures at livetraffic.com.au or [132 701](https://www.132701.com.au) or your local Council.

For emergency help in floods, storms and tsunamis, call the NSW State Emergency Service on [132 500](https://www.132500.com.au). In life threatening situations, call Triple Zero ([000](https://www.000.com.au)) immediately.
