

Cowra, Goolagong, Nanami, Forbes flooding Monitor conditions Advice

Issued: Tuesday 06 Feb 2024 12:49 pm

FINAL UPDATE

The NSW SES advises people in the following area(s) to **MONITOR CONDITIONS** of the minor flooding on the Lachlan River:

- Low-lying roads and culverts
- Unsealed roads
- Causeways
- Campgrounds along the riverbanks
- Known flash flooding and riverine flood concerns

You should monitor conditions by checking warnings issued by NSW SES on their website and Facebook page, listening to your local ABC radio station, and following the latest weather information from the Bureau of Meteorology online.

What are we expecting?

The Bureau of Meteorology advises Flooding is no longer expected across the Lachlan River.

Ex-Tropical Cyclone Kirrily has now moved offshore and weakened to a coastal trough. No further widespread heavy rainfall is expected across the flood watch area.

This trough may potentially bring significant rain to some western areas on Monday, before shifting to the southeast during Tuesday.

Based on predictions from the Bureau of Meteorology, the following areas may be impacted by floodwaters:

- Flooding is no longer expected in the following catchments: Lachlan River to Cotton's Weir, Belubula River, Mandagery Creek, Lower Lachlan River, Murrumbidgee River to Wagga Wagga, Mirrool Creek, Queanbeyan and Molonglo Rivers, Mount Gunderbooka to Wokabity Lake, Bulla-Bancannia District, Cooper Creek.

What you need to do:

- Consider the consequences of road and bridge closures. Damage to roads, bridges or buildings caused by flooding and landslip may still exist in your area. Consider the need to make alternate arrangements for work, children, and travel.
- Be aware of road hazards including mud and debris.
- Remain vigilant as there could still be water in low lying areas.
- Obey all signs about road closures and instructions from emergency services.
- Never drive, walk, ride through, play or swim in flood water - it is dangerous, toxic, and may void your car insurance. If it's flooded, forget it. Fines may apply.
- Avoid storm drains and pipes, ditches, ravines, creeks, and rivers.
- If you are isolated and require resupply, contact NSW SES on 132 500.

For more information:

- Listen to your local ABC radio station which can be found at reception.abc.net.au.
- Follow us on social media [@NSWSES](https://twitter.com/NSWSES) or visit our website at www.ses.nsw.gov.au
- Learn about your risk at www.ses.nsw.gov.au/knowyourrisk/
- Check latest weather, warnings, rainfall and river heights at www.bom.gov.au/nsw/
- Check road closures at livetraffic.com.au or [132 701](https://132701.com.au) or your local Council.

For emergency help in floods, storms and tsunamis, call the NSW State Emergency Service on [132 500](tel:132500). In life threatening situations, call Triple Zero ([000](tel:000)) immediately.
