

Halse Road, Yenda flooding

Stay informed

Advice

Issued: Monday 01 Jul 2024 10:35 am

Next update: Tuesday 02 Jul 11:30 am or as the situation changes

The NSW SES advises people in the following area(s) to **STAY INFORMED** about predicted rising water minor flooding on the Mirrool Creek :

- Low lying areas

You should stay informed by monitoring warnings issued by NSW SES on their website and Facebook page, listening to your local ABC radio station, and checking the latest weather information from the Bureau of Meteorology online.

What are we expecting?

The Bureau of Meteorology advises Local rainfall across the Mirrool Creek catchment has caused river level rises at East Mirrool Regulator, where minor flooding is occurring.

Upper Mirrool Creek:

The Mirrool Creek at East Mirrool Regulator may remain around the minor flood level (0.90 metres) for the rest of Monday into Tuesday.

Based on predictions from the Bureau of Meteorology, the following areas may be impacted by dangerous floodwaters:

- Low lying culverts and causeways.
- Unsealed roads

What you need to do:

- If you have a Home and/or Business Emergency Plan, review it now. Otherwise, have a conversation and plan for what you will do and take with you if you need to evacuate.
- Consider the consequences of road and bridge closures and water over roads and make alternate arrangements for work, children, and travel.
- Obey all signs about road closures and instructions from emergency services.
- Never drive, walk, ride through, play or swim in flood water - it is dangerous, toxic, and may void your car insurance. If it's flooded, forget it. Fines may apply.
- Avoid storm drains and pipes, ditches, ravines, creeks, and rivers.
- People in areas likely to be impacted by flooding should raise their assets, including waste and chemical containers above expected flood heights.
- Share this information with family, friends, and neighbours and help others prepare where possible.
- If you are likely to be isolated due to flooding, stock up on essential items now.
- People working or camping along the river should monitor river heights and be prepared to relocate to higher ground.
- Farmers should consider moving pumps and farm equipment to higher ground.

For more information:

- Listen to your local ABC radio station which can be found at reception.abc.net.au
- Follow us on social media [@NSWSES](https://twitter.com/NSWSES) or visit our website at www.ses.nsw.gov.au
