It was extremely disappointing to receive confirmation from the Office of Local Government that the NSW Grants Commission has reversed its proposed changes to the Financial Assistance Grants distribution methodology for the 2027-28 financial year.

Under the proposed Horizontal Fiscal Equalisation methodology, Balranald Shire Council was set to receive approximately an additional $1 million per year in Financial Assistance Grants funding. Our neighbouring councils, including Hay and Wentworth, were also expected to benefit, as were many councils across western New South Wales.

Unfortunately, concerns were raised by a number of local government areas that were projected to receive reduced funding under the proposed model. As a result, numerous submissions were made to the Grants Commission, with some questioning the methodology and others calling for it to be abandoned altogether.

I certainly understand why councils facing a reduction in funding would be concerned. However, the key question that must be asked is: if the methodology is considered fair, accurate and consistent with national equalisation principles, why has it now been reversed?

If the methodology was correct, then it begs the question of whether councils such as Balranald have been missing out on millions of dollars in funding over many decades. As a remote council with a very small rate base and significant infrastructure responsibilities, we rely heavily on government funding to deliver services and maintain assets across our vast local government area.

I can assure residents that Councillors together with our senior staff, will continue to advocate strongly for the Government to revisit this issue. Ensuring a fair distribution of funding is vital for remote communities such as ours.

Despite this disappointment, there are a number of significant projects progressing across the shire.

At our most recent Council meeting, a contractor was appointed for the Balranald Shared Footpath Project. The pathway will extend from Endeavour Drive along the Sturt Highway, along Lions Park side of Yuranigh street across to Church Street to Moa Street and then continue in two directions: one pathway will run along Greenham Park to the cemetery, while the second will run along the front of Greenham Park to the Balranald Central School.

This is a major investment in community infrastructure and will provide safer connections for residents, students, and visitors. We are also hopeful that work will soon commence on the proposed shared pathway linking Euston School and the recreation ground alongside the highway.

From the Mayor's Office Continued

Council is also nearing completion of documentation associated with the purchase of additional land required to extend the Balranald Aerodrome runway. This project is critical for the future growth of our community. An extended runway will support larger aircraft operations, including improved access for the Royal Flying Doctor Service and opportunities associated with future mining and commercial activities.

Recently, it was pleasing to meet with David Farley and his office to discuss a joint aerodrome strategy involving Balranald, Hay, and Wentworth councils, all of which are seeking to upgrade their aviation infrastructure.

There was also welcome news from the NSW Government regarding the Sturt Highway. An additional $310 million has been committed to upgrading the highway between Euston and Darlington Point, along with further works south towards Tocumwal. This funding is in addition to the $60 million previously allocated for improvements at key intersections.
While it remains unclear whether overtaking lanes will form part of the final scope of works, I have been in contact with government agencies and Transport for NSW and have been advised that overtaking opportunities remain under consideration. Although further announcements are yet to be made, this investment represents a positive step forward for one of the state's most important freight routes.

Some residents have asked why no major announcement was made regarding the section of the Sturt Highway between Euston and Buronga. My understanding is that this announcement is for the corridor of heavy haulage movements associated with renewable energy projects, particularly the transportation of wind turbine components across the Robinvale Bridge and through Balranald, Hay and beyond.

As Mayor, I will continue advocating to both the NSW and Federal Governments for further investment in the Sturt Highway, including overtaking lanes between Euston and Buronga. These improvements are essential for road safety, freight efficiency, and the long-term prosperity of our region.

While funding challenges remain, Council will continue working hard to secure investments that strengthen our community, improve infrastructure, and support the future growth of Balranald Shire.

Little Bunyips Family Mental Health Day

On Saturday, 10 October, I had the pleasure of attending the Little Bunyips Family Mental Health Day. It was a beautiful sunny day and wonderful to see so many children and families enjoying the event and spending quality time together.

The day featured a range of children's activities, raffles, a community barbecue, and several valuable services and organisations that were on hand to provide information, support, and assistance to those who needed it.

Mental health is one of the greatest challenges facing our society today, and it is important that people know they are not alone and have opportunities to reach out for support. Events such as this play a vital role in bringing communities together, raising awareness, and demonstrating that help is available when people need it most.

Balranald Shire Council strongly supports initiatives that promote mental health and wellbeing across our community. Through the work of our committees, volunteers, and community groups, we are committed to supporting events that encourage connection, inclusion, and support for all residents.

I would like to sincerely thank Paige Winch for extending the invitation to Balranald Shire Council and congratulate everyone involved in organising this fantastic event. Your hard work and dedication helped create a welcoming and meaningful day for families and the broader community.

Well done to all involved. Together, we can continue to build a stronger, healthier, and more connected community.

Sheep Dog Trial a Great Day Out at Homebush Pub

On Saturday, 10 October, I had the pleasure of attending the Sheep Dog Trial at the Homebush Pub alongside Deputy Mayor Dwaine Scott and Creative Connie Mallett, who was, as always, busy behind the scenes capturing plenty of photographs and showcasing the great work happening across the Balranald Shire.

It was a fantastic day, and a wonderful community event organised by Mark Pegus, proprietor of the Homebush Pub. Mark has done an outstanding job breathing new life into this iconic local venue, and the success of the Sheep Dog Trial is another example of the positive impact he is having on our community.

I must admit, I had never seen a sheep dog trial before. At one stage I even thought about bringing my dog along. Then I had another idea and wondered whether I should bring my little pig and see if we could recreate the movie, Babe ! Thankfully, I left that to the professionals.

The event attracted a great crowd, with families and children enjoying the beautiful day, great food, and unique entertainment. It was wonderful to see so many people visiting our shire and supporting a local event that offers something a little different.

Events like these play an important role in bringing communities together, supporting local businesses and attracting visitors to our region. The atmosphere throughout the day was terrific, and it was clear that everyone had a fantastic time.
Congratulations to Mark and all the organisers, competitors, volunteers, and supporters who helped make the day such a success. I look forward to seeing this event continue to grow in the years to come.

Mayor Louie Zaffina
Balranald Shire Council

Maintenance Grading

The Maintenance Grading Program continues to make strong progress across the region, with more than 78 km of unsealed roads completed during September, including works on Tapalin Mail Road, Weimby Benongal Road, Weimby Kyalite Road, Marma Box Creek Road, Oxley Road and Oxley Clare Road. Maintenance grading will continue throughout October on Clare Mossgiel Road, Tammit Road, Arumpo Road, Euston Prungle Road and Dockerty Road. These works reflect Council's ongoing commitment to maintaining safe, reliable and well-maintained road networks for residents, industry and visitors across the region.

Infrastructure UPDATES

Construction MR 514 "Oxley Rd"

Construction of Stage 1 of the Oxley Road Upgrade is progressing well, with approximately 60% of works now complete. The road subgrade has been raised to the designed levels and is ready for the subbase layer, with pavement base course works to follow. Upon completion of Stage 1, works will move to Stage 2, focusing on further road raising and pavement improvements. The project will enhance road quality, durability and all-weather accessibility, delivering long-term benefits for road users.

Parks and Garden Updates

The Parks and Gardens team has the Balranald Racecourse in excellent condition ahead of the upcoming race meeting on 24 October, with recent rainfall contributing to a lush and healthy turf surface across the venue. The outstanding presentation of the racecourse is a testament to the team's dedication and hard work. Meanwhile, Parks and Gardens crews continue to maintain high standards across Balranald and Euston, with mowing, weeding and spraying programs progressing well despite increased vegetation growth and seasonal maintenance demands.

New Speed Signage Enhances Safety in Euston Village

A total of 26 new 60 km/h speed limit signs have been installed throughout Euston Village, enhancing speed awareness and road safety for residents and visitors.

The upgraded signage clearly identifies speed limits and encourages safer driving behaviour, helping to create a safer environment for motorists, pedestrians and the wider community. This initiative forms part of Council's ongoing commitment to improving traffic safety and protecting all road users.

Smart Water Meter installation Project

The Smart Water Metering Project continues to progress well, with strong network coverage confirmed across both Balranald and Euston and all required systems, customer communications and staff training now in place. The customer and staff portals have been successfully implemented, supporting improved water management and service delivery. Meter replacement works are advancing steadily, with 450 of the 529 planned smart meters installed to date, representing significant progress toward the project's completion. Once complete, the new smart metering system will provide more accurate water usage data and improved monitoring capabilities for Council and residents.

Isla teaching Fay the fishing game

Happy Birthday Liz!! The requested boiled fruit cake was magnificent. We have a number of birthdays coming up and all have requested a boiled fruit cake now! Margie will be busy.

News From BIDGEE HAVEN HOSTEL!

We visited the children in Ballendella Street with a lemonade stall. They are doing a wonderful job. Polite, kind, respectful children. The lemonade was divine. Perfect balance of tartness and not over sweet.

Building Work Update

Excellent progress has been made across the Bidgee Haven Project. The 6-Bed Extension is well advanced, with structural steel completed and roofing nearing completion.

The Fire Plant Area has achieved completion of concrete works, while service installations continue. Site preparation and civil works have been completed for both the Dining Extension and Laundry & Pantry Upgrade, with demolition works progressing as planned.

Overall, the project continues to move steadily through key construction milestones.

Introduction to Artificial Intelligence

Build your AI skills with confidence

Join this fully subsidised, practical beginner-friendly course to discover how AI tools like Copilot and ChatGPT can support everyday tasks while learning how to use them safely, responsibly and effectively.

What you'll learn

- What AI is and how it works
- How to use tools such as ChatGPT and Copilot
- Simple prompting techniques to get the best results
- How to manage privacy, cybersecurity, misinformation and bias risks
- Practical ways AI can support your work, business or community

Stay alert for plague locusts !

Farmers across NSW are being encouraged to keep an eye out for signs of Australian plague locust activity and report any signs early. Plague locusts can cause significant damage to crops and pastures if left unchecked. Early reporting helps biosecurity officers monitor activity and provide advice on management options before populations increase.

When checking paddocks and other areas around your property, look for bands of young locusts, known as nymphs, moving together on the ground. The nymphs often appear dark or black in colour and form in dense bands across paddocks, pastures, roadsides and fence lines before developing into flying adults. Early reporting helps detect locusts while they are in the nymph stage, when management options are more effective than after they've developed into flying swarms.

Landholders are required to report locust activity within one working day of detection. To report a sighting, contact your Local Land Services biosecurity officer on 1300 795 299.

More information is available at: www.nsw.gov.au/locusts.

ARE YOU AGED 16–25 & STARTING YOUR CAREER?

COUNTRY EDUCATION FOUNDATION OF BALRANALD

GRANTS NOW OPEN

The **Country Education Foundation of Balranald** has opened its annual grant round for **all young people** living within the **Balranald Shire area**, including the towns of Euston, Balranald and beyond.

Need some financial support to meet your career goals?

If you are transitioning from school (or a gap year or even a few years of working) into your career, are **aged 16–25 years** and **need some financial support in meeting your career goals**, you may be eligible to apply.

HOW TO APPLY

1. Go to: https://cef.org.au/apply-for-a-grant/
2. Create a 'Student Registration'
3. Select **Balranald** as your local Foundation
4. Complete an application form

APPLICATIONS CLOSE

Saturday 31st October 2026

Applications must be completed online and received by COB Saturday 31st October 2026 (late applications will not be accepted) and interviews will be held by mid-November 2026.

Grants to local young people are made possible through the generous financial support of key local sponsors, including Balranald Shire Council, Balranald Inc., Balranald ICPA and Limondale.

Small Grants. Big Opportunities.

ILUKA RESOURCES COMMUNITY FUNDING: CALL FOR APPLICATIONS

Iluka Resources and Balranald Shire Council warmly invite applications for funding for the Community Fund and Scholarship Fund.
These funds are annual community contributions that form part of the Voluntary Planning Agreement between Iluka and the Council.

HOW TO APPLY FOR FUNDING

Community groups and individuals can apply for either fund:

- **Community Fund:** a fund of $75,000 in May ($150,000 annually) to support a range of community projects, events and initiatives. Evidence of consideration for project costs and budget must be provided.
- **Scholarship Fund:** a smaller fund to support educational and training initiatives, for example contributions towards traineeships, apprenticeships and higher education.

Applications for both funds must be made by completing an application form. Both forms are available on the BSC website or upon request by emailing **balranald.community@iluka.com**.

Applications must be received by Monday 16 Nov 2026 to be considered by the committee.

For more information or if you have any questions, please email **balranald.community@iluka.com**.
We look forward to receiving your application.

The Robinvale Euston Rotary Club was thrilled to welcome The Big Ride 26 to Euston this week!

Twelve jet ski riders, along with their amazing support crews, arrived in Euston on Monday afternoon as they make their way down the mighty Murray River — travelling more than 2,000km from Albury to Goolwa!
The crew enjoyed dinner at the Euston Community Hall and Footy Oval before heading over to the Euston Club for a friendly game of bowls with Rotarian bowlers John and Shane.

On Tuesday morning, the riders enjoyed breakfast with members of the Robinvale Euston Rotary Club and Shire of Balranald Mayor Lui, before heading off to continue their incredible journey. But this ride is about much more than adventure. The Big Ride 26 is raising awareness and funds for Motor Neurone Disease (MND), partnering with MND organisations across NSW, Victoria and South Australia. The riders come from all around Australia, including South Australia, Victoria, New South Wales and Queensland, and range across all ages.

Their message is simple but powerful —"Enjoying Life"— while helping raise awareness and support for people living with MND, their families and carers. As they continue their journey from Albury to Goolwa, we wish all the riders and support crews a safe trip and plenty of wonderful memories along the Murray. A huge welcome and thank you to The Big Ride 26 for stopping in Euston and for helping shine a light on such an important cause.

MND SA — NEVER GIVE UP!

Transport for NSW

Tooleybuc Bridge maintenance, night closures and detour

Notification letter

October 2026

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW (Transport) is planning essential maintenance at Tooleybuc Bridge across the Murray Riverat Tooleybuc.

This work will ensure the bridge remains safe and continues to be an important link for communities and freight across the Murray River.

What work are we doing?

The ongoing bridge maintenance program follows the strengthening work that was carried out in two stages and finished in late 2024.

Work includes:

- replacing a section of the timber deck
- repairing the handrails
- carrying out maintenance under the bridge.

When we'll be working

We'll be working day and night shifts at Tooleybuc Bridge from late October for about eight weeks, weather permitting.

From Wednesday 28 October we will be:

- setting up the site during day shifts, weekdays between 6am and 6pm.

From Sunday 1 November we will be:

- carrying out night work between 8pm and 4am with intermittent bridge closures up to 15 minutes, working Sunday night to Friday morning.

From Sunday 8 November we will be:

- carrying out night work between 8pm and 4am with full bridge closures, working Sunday night to Friday morning.

From Sunday 29 November we will be:

- carrying out night work between 8pm and 4am with intermittent bridge closures up to 15 minutes, Sunday night to Friday morning.

Work is expected to be finished by Friday 18 December, weather permitting.

Traffic changes and impacts

There will be traffic management at the work site during work hours. Changes on site include:

- closing the bridge at 8pm each night between Sunday and Thursday. Access to Tooleybuc will be via a detour to Nyah
- detouring vehicles higher than 4.1 metres via Swan Hill
- opening the bridge at weekends from 4am Friday morning to 8pm Sunday night, and from 4am to 8pm during the week
- reduced speed limit of 30 km/h.

What will this mean for you?

We aim to manage our work to minimise impacts to the community including:

- making every effort to minimise noise impacts
- aiming to finish the noisiest work by midnight, however there will be some noise up to 4am
- allowing the Murray River main channel and lift span to remain open during the project
- maintaining bridge access between 4am and 8pm.

COUNCILORS in the community

Councillor Linnett enjoyed a wonderful evening hosted by Maari Ma Health in Balranald, with former AFL star David Schwarz sharing his insights and experiences as the guest speaker. It was a great opportunity to connect with the community and highlight the importance of health and wellbeing.

Congratulations to Colin Jacka on receiving a NSW Volunteer Award, a well-deserved recognition of his outstanding commitment, generosity, and service to the community.
